Passes Up To The Senate The Responsibility Of Confirming Law Breakers.

Frankfort, Ky., Jan. 23.—The flood of bills continues without much abatement. The total now in the legislative hopper is 371, and the grinding has already begun. The Schley resolution has passed both houses, carrying with it a condemnation of the "naval clique" at Washington.

Among the important bills introduced this week was one to repeal the McCain tobacco bill, and one to establish a Confederate Home as a State charitable institution.

ASYLUM APPOINTMENTS.
On Tuesday the Governor sent to the Senate the following appointments:

Central Asylum—Dr. J. G. Furnish, superintendent; Dr. J. W. Hill, assistant physician; Dr. M. H. Yeaman, second assistant physician; Dr. Louise B. Trigg, third assistant physician; Samuel Fulton, Steward.

Western Asylum—Dr. W. W. Ray, superintendent; Dr. W. A. Lackey, assistant physician; Dr. J. W. Stephens, second assistant physician; Dr. Florence Meder, third assistant physician; Buckner Leavelle, steward.

To be State Inspector and Examiner—Henry B. Hines.

All of the appointments were referred to the proper committee.

Senator Edwards has introduced a bill providing for a fuller assessment of certain taxable property by requiring the assessor to ask each person as to any notes he may own, but that may be held by others. Referred to Committee on Revenue and Taxation.

By a vote of 23 to 9 the Senate passed the Farria bill, providing for a vote on a constitutional amendment for a return to the viva voce system of voting.

RESULTED IN DEATH.

Victim of Runaway Accident Relieved of His Sufferings.

Mr. L. W. D. Hamby, who was injured in a runaway accident near Kelly about three weeks ago, died at the home of his son-in-law, Mr. Thomas Walker, Wednesday night. Mr. Hamby lived near Larkin and was visiting Mr. Walker's family when the accident occurred.

He was about 75 years old and a man held in the highest esteem by all who knew him.

He was an uncle of Chief of Police E. H. Armstrong, and had held the office of Justice of the Peace several terms.

Deceased is survived by a widow and five sons.

The interment took place in the family burying ground yesterday afternoon.

HEAVY RECEIPTS.

This Week, Both Loose And in Casks.

Receipts of tobacco for this week amounted to 225 hogheads and receipts for the year 41 hogheads. Only cask receipts are reported above. Loose receipts are very large and will continue to increase if good weather for handling, the weed prevails.

It is estimated that fully 85 per cent of the tobacco crop of 1901 has been sold to loose buyers and 25 per cent of same has already been delivered.

Previous quotations fairly represent the local market this week.

A SURPRISE.

One of Hopkinsville's Young Men To Marry.

The following, from the society columns of the Houston, Texas, Daily Post, of the 17th inst., will cause a ripple of surprise to our readers:

Miss Edie Jones entertained the Hard Times club yesterday with a luncheon, at which Miss Anna M. Miller, the president of the club, made the very interesting announcement that the brides would be married in the early part of April to Mr. McClure Kelly of Dallas. Miss Jones is the daughter of Mr. H. A. Jones of the Southern Pacific and is one of the most admired and one of the greatest favorites among the society girls of Houston. Mr. Kelly will remove to Houston and reside there after his marriage.

As it is well known, Mr. Kelly is one of the most successful business men that has left our city to avail himself of the opportunities presenting themselves to all young men possessing the prerequisite of success in the business world. Mr. Kelly is the oldest son of Mr. Walter Kelly of this city. For a number of years he has been adjusting losses for the St. Paul Fire and Marine Insurance Company. He is accounted one of the best men in his line in the country, and fully deserves the position he now occupies. The KENTUCKIAN, extends its congratulations in advance.

RILEY'S RISE.

He is Making a Great Record in West Point.

Cadet Napoleon W. Riley, son of Capt. J. W. Riley, of Newstead, who is a second year man at West Point, has successfully passed the mid-winter examinations, with great credit to himself. Eleven members of his class failed to pass, but young Riley easily held his place near the front of those who did.

Mr. Riley also made a great football record the last season. Out of ten games in which he played, he won nine.

He is rapidly taking a high rank in the academy, both in his classes and athletic sports.

A Fine Showing.

The directors of the Standard Publishing Company, of Lexington, Ky., which owns the Southern School Journal, have declared an 8 per cent dividend to be paid out of the net earnings of the company for the year 1901. It is the only stock in Lexington paying eight per cent this year; 10 per cent could have been paid but the directors think it best to hold a good reserve. The list of bonafide, paying subscribers has been increased to nearly five thousand.

Two hundred clerks were discharged from the Pension Department last Thursday. Most of those discharged were women from all parts of the United States. Director Merriam says that this is but the forerunner of many other wholesale discharges.

Nature "makes all things beautiful in their time." Every one of life's seasons, when life moves on Nature's lines, has its own charm and beauty. Many women dread that period when they must experience change of life. They fear that face and form may suffer by the change, and that they may fail to please those whom they love. The value of Doctor Pierce's Favorite Prescription in this crisis of woman's life lies in the fact that it assists Nature. Its use preserves the balance and buoyancy of the mind and sustains the physical powers. Many women have expressed their gratitude for the help and comfort given by Favorite Prescription in this trying period. Its benefits are not passing but permanent and conducive to mental happiness as well as physical strength.

ANNOUNCEMENT

We are authorized to announce
MR. W. H. BELL,
of Christian County, a candidate for Railroad Commissioner in the First Railroad District of Kentucky, subject to the action of the Democratic party. Election Nov. 1902.

The House Committee has reported ed favorably on a bill for the election of United States Senators by the people.

The erection of a new capital building at Frankfort does not look like a near probability.

After all the World's Fair at St. Louis is not to be postponed. The executive board says it must be held in 1903.

The last formalities in the election of Senator McCreary were complied with Wednesday.

The Jim Howard case will go to the jury to-day. Another conviction is confidently expected.

The Committee on War claims has reported favorably on the bill allowing Kentucky \$973,000 interest on money expended during the Civil War.

The Mayor of Louisville, has invited Prince Henry to visit Louisville. Louisville wants everything and everybody of any importance, and generally gets what she wants.

Russell Sage, has been sued by Isabelle D'Auria, for attention paid her years ago. The rate of "interest" is too high for once for the millionaire.

That naval engagement in the bay at Panama should be a hint to Uncle Sam to keep quite on the Panama canal business for a while. He may have to enter into a treaty with somebody yet.

The Bank of Hartford was robbed of \$4,000 Tuesday night, but bloodhounds were hastily procured and the thieves were tracked to their hiding place and captured next day, the stolen money being recovered.

National Bank defaulters seem to be in the lead of late. Bank examiners do not appear to be much in the way of "preventions of stealings." Depositors would prefer before taking "to alter service."

The reports of National Bank for the year 1901 show a large increase in the business. But how about the increase of the wages of the poor man? To a man up a tree it looks like he pays more for what he eats and wears, as a rule, yet he has not had a corresponding increase in wages.

"Three ex-Governors and the Lieutenant-Governor of Missouri are to return to their native State and appeal for the Kentucky World's Fair exhibit, which we (they) may be proud to point out to our children." Well, what's the matter with caging that delegation and making it Kentucky's exhibit, labeled with the historic legend: "These are my jewels!"—Louisville Times.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder. This is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

An Ancient Cure

A cure for all kinds of ailments, from colds and coughs to asthma and bronchitis. It is a simple, natural remedy that has been used for centuries. It is made from the roots of the Sarsaparilla plant, which is known for its purifying properties. It is a safe and effective cure for all kinds of ailments.

A French physician, on the left side of my neck, I remember once, was induced, and became a convert to the use of the Sarsaparilla. He took it for a long time, and it cured him of all his ailments. He then took it for his family, and it cured them all. He then took it for his patients, and it cured them all. He then took it for his friends, and it cured them all. He then took it for his enemies, and it cured them all. He then took it for his country, and it cured it all. He then took it for the world, and it cured it all.

H. O. Sarsaparilla and T. S.

will rid you of it, safely and permanently, as they last rid thousands.

Another destructive critic has bobbed up in the person of Prof. Chas. W. Pearson, who occupies the chair of English Literature in the Northwestern University at Evanston, Ill., under the patronage of the Northern Methodist church. He has given out for publication his belief that the Bible is not infallible, and that the miracles wrought by Christ are mere poetic fancies. Wonder how much better off the world would be if his views were generally accepted and acted upon. It seems that when a "Professor" wants to be brought into notice he must declare his unbelief in something that everybody believes in and what he is paid to inculcate.

The church hugging society, organized (by consent of both sexes), on the following scale of prices: Girls under fifteen years of age, fifteen cents for a hug of two minutes or ten cents for a short squeeze; under twenty years, fifty cents; under twenty to twenty-five, seventy-five cents; schoolmarms, forty cents; other men's wives, \$1; old maids, three cents each and no time limit. The society has forty-three members, and on Thursday evening an up-to-date performance was given along the schedule lines. Another is set for February 1. The older people of the church are in arms.

Commandant Scheepers, a Boer officer captured by the British while sick in a hospital, was "executed by Kitchener's orders last Saturday for treason, just as many of his fellow patriots have died. Congress undertook to act in the matter, but the news of his sentence was sent out after his execution. It may be that the blood of this murdered patriot may arouse the interest of our President, who is something of a Dutchman himself.

The first of the year generally brings to light the misdoings of bank officials. The cashier of the First National Bank of Great Falls, Mont., didn't "bust" the bank but as his "defalcation" is reported to be in the neighborhood of \$70,000, it may be presumed that Matteson did the best he could in the premises.

The question of returning to the viva voce system of voting in this state will probably be submitted to the people in the way of a constitutional amendment. The Senate Judiciary committee has reported favorably on this bill.

The Payton Sisters.

The Payton Sisters Comedy Company commenced a three nights' engagement at Holland's Opera House last evening, presenting Lem B. Parker's four-act rural comedy "Utah." To-night "Under Two Flags," a three act comedy drama, will be presented. Matinee Saturday afternoon and a Day Saturday night.

This company numbers fourteen people, with scenery, fine costumes and electrical effects for each production.

The press of the country speaks in the highest terms of the company and good houses should greet them on each performance here. Popular prices prevail.

Mr. Ladd has introduced a bill to provide the Governor with two more secretaries at a cost of \$2,700 a year. Mr. Ladd probably means well but additional secretaries will hardly accomplish the results aimed at.

Arch-Duchess Elizabeth, of Austria, has renounced her claim to the throne in order to wed Prince Otto Von Winden-schgraetz. She took, name and all, last Wednesday.

Mr. Allen D. Wallis returned Tuesday from a business trip to St. Louis.

Remarkable Cure of Croup.

A LITTLE DOY'S LIFE SAVED.
I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed ever ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the plug out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth to-day.—JOEL DEMONT, Inwood, Iowa. For sale by all Drugists.

Scruggs-Radford.

Mr. D. M. Scruggs, a well known bachelor of near Herndon, and Miss Mamie G. Radford, of Howell, were married Wednesday afternoon.

A Good Recommendation.

"I have noticed that the sale on Chamberlain's Stomach & Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bloated, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. For sale by all druggists.

Edgewood.

8069.

Edgewood's breeding is of the most fashionable strain, and contains crosses to all the blood that has produced the winners of the world. Such stallions are too few for the good of the trotting industry. Numbers of the best, were during the hard times—just past, exported to foreign countries. Among the few left to fill the requirements Edgewood remains, though yet a young horse, has seven to his credit, with records from 2:24 to 2:10, which, in itself, is proof sufficient as to his merit. His colts are all blue, large, good-looking individuals, good actors and trotters, and command the top prices when led in the sale ring. Gayety, 2:18 1/4, one of his handsome daughters, was sold to John Spilan, of Cleveland, Ohio, last February for Five Thousand Dollars (\$5,000.00). Eight youngsters by him were sold to John S. Lackey's sale in March last, by S. J. Fleming & Son, of Terre Haute, Ind., for prices that proved to them that there was still money in raising colts by the right kind of a horse.

Edgewood is the property of S. J. Fleming & Son, of Terre Haute, Ind., and ranks with such horses as Margrave, Astell, and Jersey Wilks, which is proven by his list of colts with race records. His colts make fine roadsters and Matinee horses and are sought for that purpose as well as for race horses.

Edgewood, by Nutwood (600) sire of 160 performers, including Lockhart, 2:08 1/4, Manner, 2:06, and 12 others in 2:10 list. He by Belmont. He by Abdallah, 1:51. He by Hambletonian, 1:50. Nutwood's dam, Miss Russell, dam of Maud S, 2:08 1/4, and six others. Her sons are sires of 223, and Edgewood's dam, Melrose, is the dam of Glenview Belle, 2:30 1/4, and Frances, (2 yr.) 2:28 1/4, made in 1901. His second dam, Moss Rose, dam of Nutrose, 2:22, and grand dam of 16, 3rd dam, Primrose, the dam of 6, from 3:30 to 2:20, 4th dam, Black Rose, dam of 5 in the 2:30 list.

This grandly bred horse will make the season at J. J. Van Cleave's farm on the Clarksville pike. For further information, address

Twenty-three Years.

In view of the fact that the KENTUCKIAN has wound up its 23rd year of success, it is not out of place to say a word to its friends. - The KENTUCKIAN has long since become a fixture of Hopkinsville.

All Newspaper Records in the City Have Been Broken by it.

No other paper ever published in Hopkinsville can point to a record of more than 20 years, with each year's business better than the one before. How many papers in that time have tried to run in Hopkinsville and fallen by the wayside? How many have failed to reach the goal?

An ocean cable 10,000 miles long would not serve the purpose for which it was designed if it fell short within twenty feet of the receiving-instrument.

It isn't the first end that counts. It's the last end. The start is nothing. Every contestant starts in a race, but how many finish? Almost any horse can begin in a race. Wish a few trials, ever an old plug may get away from the wire all right, but it's the coming under the wire for the last time that counts, it's being in the race to the finish that is alone valuable.

A great many things in this world are made to begin well enough, but they fall short.

The KENTUCKIAN as an advertising medium has never fallen short. As a news medium, occupying a field of its own choosing, it has for 20 years stood squarely upon its merits and succeeded

WHERE OTHERS FAILED.

Advertisers should bear this in mind. Money spent for Newspaper Advertising is an investment. It is not how much the advertising costs, but how large will be the returns. The mission of Newspaper Advertising is to Sell Goods. When the careful merchant has decided the important question as to the right medium, then, by attractive display advertising in that medium, he will inevitably increase sales. This result follows as surely as day follows night. The

Kentuckian

is the medium that pays, because it reaches the people. It has among its patrons advertisers who have been with it without a break for 12 to 15 years. It numbers the very best class of advertisers in their respective lines of business.

If you are not already a customer of ours, we want to make you one, and your advertising ONE OF OUR SPECIALTIES.

Newspaper advertising has become an indispensable adjunct to business. You need the advertising, we have the space to sell. Come let us do business with each other.

And to the reading public, remember we cover the entire news field twice a week for only \$2 a year. At least one half of the news we give is in advance of other publications, because our facilities for gathering out-of-town news are equaled by none. If your time is outrenown promptly. If you have never taken the KENTUCKIAN, try it for 1902.

BLIND AND IN WANT.

Last Days of Jules Verne Move His Friends to Tears.

Famous French Author, Once the Pet of Society, Reduced to Abject Poverty—Stone of His Grave—Last Stories.

Jules Verne, "the of the great imagination," as the French call him, the writer of 80 fabulously successful novels, lies dying at his home in Amiens, old, blind and penniless. His son is now in England with the hope of getting some of his father's admirers to place their names on a subscription list that the dying man may lack neither doctors nor medicine while he yet lives, nor a decent burial when he dies.

The world's farewell to the novelist must be a bitter contrast to its welcome and to the hospitality he enjoyed during his stay. From every point of view his life has been successful. He had fame in every civilized country, money in consequence thereof, the friendship of the great among his countrymen, health and the love of a devoted wife. Today the last alone remains to him. His fame diminished as his writing waned. He had spent his money and the faculty of making money departed with old age. His friends are dead and he has become blind.

Verne's books were a new sort, different in kind from any that had been published in France. The love motif was entirely absent. His heroes were adventurers, travelers, who overcame the impossible, the impossible, the conventional daredevil, spent none of their time in either getting beautiful maidens into distress by breaking their hearts, or in getting them out of it by breaking their maligners' heads. The Verne adventures fight and beat other men or move frequently alone. The laws of time and gravity are their pet avocations. Their author succeeded in accomplishing the previously impossible for he made the marriage between science and fiction, two creatures of an incompatible temperament, happy. At least so far as the lay world could judge.

But he himself was not made happy by his work. In his later days he has been frequently melancholy, because, as he continually said, he thought he had accomplished nothing worthy of literature. A favorite remark of his has been: "Je ne compte pas dans la littérature Française." "I amount to nothing in French literature." Georges Sand, the great woman novelist, admired his tales. After reading several stories which he wrote about balloons and flying machines, he asked him to take another tack. One of his greatest novels, "Twenty Thousand Leagues Under the Sea," followed. Then one of Cook's tourist time tables gave him the idea of "Around the World in Eighty Days," which is the best known of his writings. Even today, when by means of the transcontinental railroads a traveler manages to make a circle around the earth in less than 90 days, he is wont to boast of having defeated the resourceful Phileas Fogg.

Verne was not a traveler. He never tried to visit any of the places he wrote about. The majority of the sites he writes about are inaccessible to members of this age and generation, anyhow, and maybe their desirability thought it was not worth the while to go to the rest. He always said his hardest work came when he had to read up about the places he had not seen but would describe.

He worked hard, a fact shown by his output—80 imaginative novels in less than 40 years. Arising at 4:30 in the morning, he worked until 11 before eating; then came breakfast, and in the afternoon four or five hours more of work.

When the first draft of a book was done he corrected and rechecked until he had gone through the proof sheets seven or eight times. His publishers say that his last correction looks entirely unlike the first draft; that the outlines of the plot and even the names of the characters are changed.

Verne began to write at the age of 19. "Poetry," it was then, and dreadful, too," he says himself. When graduated from college he went on the Parisienne and in a few months' speculation lost considerable money. He was always glad of it, however, because he claimed that he was thus enabled to see at close range that nervous energy and lightninglike thinking which makes his heroes interesting.

ST. VINE'S

Peace, or chaos, is one of the most probable afflictions humanity is called on to end. That this disease can be cured, however, is proven by the fact that it has been cured by the use of Dr. Pierce's Favorite Prescription.

The tranquilizing effect upon the nerves exerted by this remarkable medicine is witnessed by thousands who have found healing and strength in its use. It not only cures womanly diseases, but it promotes the health of the whole body. It is a nerve-feeding, strength-giving, sleep-inducing medicine. It makes weak women strong and makes women well.

"Favorite Prescription" contains no alcohol and is entirely free from opium, cocaine, and all other narcotics. It cannot disagree with the weakest or most delicate constitution.

"When our daughter Elsie had St. Vincent's, I happened to get one of your small books and read it," writes Henry L. Miller, Esq., of North St. Louis, Mo. "Dr. Pierce's Favorite Prescription cured my daughter's suffering from that very bad at that time and could hardly take food, and I went out and got a bottle of the book, I read to myself, with the help of God and the doctor, and she is well, thank God, and the doctor any more."

Dr. Pierce's Pleasant Pellets cure biliousness.

An Ancient Dwelling.

Located on the Anderson side of the Kentucky river, opposite Clinton, is an ancient dwelling that bears the marks of a century, says the Lawrenceburg News. It was built in 1797 by one, Williams, and has, perhaps, heard the footfall of the Red man and the twang of his bow and arrow as he chased the wild game that abounded at that time. Mr. Samuel B. Williams, a son of the builder, died about six months ago at the age of ninety-three years. Mr. Ed Murphy, the present owner of the house, carefully guards his relic of pioneer days, and keeps it in repair as well as possible without changing its appearance.

CADIZ RAILROAD.

Track Laying Will Be Completed in Few Days.

The City Already Beginning To See Prosperity For the Future.

In a conversation with a gentleman from Cadiz last Wednesday, we learned that the contractor will finish laying the track by the middle of next week.

We congratulate the gentlemen who were instrumental in having the road built from Cracey to that point. It is the best thing that has ever been done for Cadiz. Already evidences of increased business have been manifested that ought to convince the most skeptical that nothing contributes so much to the growth and prosperity of an inland town as a railroad.

Already a gentleman has under construction a large tobacco warehouse, in which it is expected one million pounds of tobacco will be handled this year; another party will soon erect a large building to be used as a produce store, and many other buildings are being planned for.

The future of our neighbor city certainly looks rosy, and the people of Cadiz will rejoice when the last rail is laid and the last spike driven home. And well they may, for then a new era of prosperity will dawn upon them—then the fulfillment of the hopes of its most prominent and hopeful people will soon be realized.

Situated as it is, in one of the prettiest and most productive sections of the state, it should long since have enjoyed the many advantages that an outlet to the world will be sure to secure for it.

In a few days more will be heard the conductors cry, "All aboard for Hopkinsville." "Good-bye, sorry teams, broken-down vehicles and mud-holes—we are going to Hopkinsville by rail," will be the glad acclaim of the good people of the capital of Trigg.

Hopkinsville rejoices with Cadiz, for she has had experience in the same line. We know what is in store for you, and are glad that you have become a nearer neighbor than ever.

ST. VITUS DANCE Cures, Circular, N.Y.

WILL COME BACK.

Dr. Pentecost Fixes February Second As the Time.

With the Probability That Mr. E. O. Excell May Conduct the Song Services.

In compliance with the wishes of our people, Dr. Geo. F. Pentecost will return and resume the meeting in progress before going to Henderson, as foreshadowed in our last issue.

There is a general desire that Mr. E. O. Excell shall be present to lead the singing. It is not necessary to say anything about the qualifications of Mr. Excell, for he is known to everybody as the finest conductor who has ever visited our city. Good singing in which all take part is absolutely necessary to the success of such meetings as are to be held, and nothing would delight our people more than to have Mr. Excell with us again.

A meeting was held last night at the city court room to perfect all plans for the approaching services. The executive committee appointed at the first meeting will at once enter upon the discharge of its duties.

Dr. F. M. Stites, Judge James Breathitt and Mr. E. B. Bassett compose this committee, and it goes without saying that every detail will be promptly met.

As we go to press before the hour of the meeting it is impossible to name the place where the services will be held. We understand that use of the Baptist church has been offered, but even the large seating capacity of the auditorium and lecture room will hardly accommodate the crowds who will be in attendance. That matter, however, was doubtless arranged at last night's meeting. The meetings will continue for ten days or two weeks.

An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past several years and have never known it to fail," says James Prendergast, merchant, Annot Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warder off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by all druggists.

A Night Of Modern Minstrelsy.

There will probably be a crowded house at Holland's Opera House on the evening of January 28. Gordon's Minstrelsy, the world-wide favorites, are coming in a brand new, up-to-date program of Minstrelsy. The performance is unique in several particulars, including the overwinding of burnt cork and the wearing over of tired, bewiskered jokes are conspicuously absent. To counter-balance for this welcome omission, the company introduce a splendid Gold Sextette and a Quintette that cannot be heard too often to suit the most exacting audience. The dancing specialists and musical artists are exceptionally clever and of a high grade, and done with a dash and spirit that is really delightful.

An evening of minstrelsy so unlike all others, is an evening that no lover of music and song should miss. Look for the great band concert at noon, Finest of any in America.
